P08 / IPPA NETWORKS

Topic : OTHER

Chair : Michael Howlett (Simon Fraser University)

Second Chair : Jose Luis Mendez (El Colegio de México)

Third Chair : Caner Bakir (Koc University)

GENERAL OBJECTIVES, RESEARCH QUESTIONS AND SCIENTIFIC RELEVANCE

This panel discusses the state of existing and proposed national and regional IPPA networks that aim to promote and advance public policy studies in their respective jurisdictions. Panellists from four continents will discuss their experiences regarding advantages and difficulties of setting up national and/or regional networks/associations. They will focus on how the network operates, its reach, initiatives, past and future activities and effect, as well as the needs for and types of IPPA support. They will also explore venues facilitating cross-national network communication, cooperation, coordination, collaboration under the auspices of IPPA, and support needed at IPPA level.

CALL FOR PAPERS

This panel discusses the state of existing and proposed national and regional IPPA networks that aim to promote and advance public policy studies in their respective jurisdictions. Panellists from four continents will discuss their experiences regarding advantages and difficulties of setting up national and/or regional networks/associations. They will focus on how the network operates, its reach, initiatives, past and future activities and effect, as well as the needs for and types of IPPA support. They will also explore venues facilitating cross-national network communication, cooperation, coordination, collaboration under the auspices of IPPA, and support needed at IPPA level.
